DETAILED ACTION

This is the third Office Action for serial number 10/735,547, Method And Apparatus For Displaying A Wine Cork, filed on December 12, 2003.

Finality Withdrawn

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-11, and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Design Patent No. 425,375 to Parham.

Parham '375 discloses a bottle holder, which is being used to place a bottle on the holder. However, Parham '375 reveals the previous invention failing to teach where a method comprising placing a cork from an opened wine bottle into a wine cork display holder. In this case, Parham '375 discloses a structure in general to support a bottle, which can be a wine bottle. Furthermore, the holder of Parham '375 has the structure limitations, which can support the cork while the bottle is being

poured. Thus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide a method for placing a cork into a display holder after open the wine bottle to prevent the cork from rolling off the table.

The rest of the claims recite the limitations of a structure with a wine cork display holder in general, which have no bearing on the method of placing a cork on a holder.

Response to Arguments

Applicant's arguments filed July 9, 2007 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Parham '375.
